

日本人注重衛生，對於被鋪的清潔和打理，從不掉以輕心。每有陽光普照的日子，都會把床單被鋪放到屋外曬晾，去除濕氣異味之餘，太陽的高溫更有助消除細菌塵蟎，保持乾爽衛生。

Japanese are meticulous in keeping a clean and germ-free home environment with particular emphasis on maintaining the freshness of beddings and blankets. Rows of bed linens are usually hung up over the balcony on sunny days to benefit from the antiseptic and deodorising effects of sunlight and heat.

一般香港家庭礙於居住環境所限，很難在室外曬晾被鋪。若在公眾地方曬晾，除了有違公德外，被鋪更會沾染灰塵，影響衛生。

Faced with a cramped living environment, it is hard for Hong Kong families to aerate their beddings. Putting your blankets outside not only exposes them to dust and pollutants but is also against public morality.

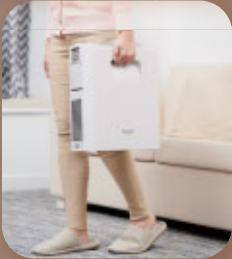

因此，我們引進了日本製造的Panasonic曬被寶，其功能及設計全面照顧香港家庭的需要，令曬被變得輕鬆容易！

Panasonic has therefore introduced the Futon Dryer, Made in Japan, the futon dryer fully satisfies the needs of Hong Kong families in providing freshly aired beddings in a breeze!
